State Data Centers

State Data Centers (SDCs) and Business and Industry Data Centers (BIDCs)

Lead data centers are usually state government agencies, universities or libraries that head a network of affiliated centers. Below we list the SDC and BIDC lead agency contacts only. All states have SDCs. Asterisks (*) identify states that also have BIDCs. In some states, one agency serves as the lead for both the SDC and the BIDC; we list the BIDC separately where there is a separate agency serving as the lead.
